On [www.etnox.com](http://www.etnox.com) your customers can browse all the products of the two etNox-collections **magic and mystic** and **Gothic deluxe** (we don't show any retail prices; there is no option to order directly from us). A comfortable search tool enables the customer to find the retailer within the nearest reach. Moreover it gives you two advantages: firstly your full address with your telephone number and/or email-address (optional) will be listed; secondly your website (optional) will be linked. All this is free of charge.

**The whole retail order process is done exclusively by you! We only benefit from your orders!**

**Just send this flyer with all personal data and your signature back to us. You need not buy anything from us as long as you have ordered 'magic and mystic'-products during 2007-2008.**

Please understand that we will delete your data from our website after one year of not ordering any 'magic and mystic'-items
